

SOCIETY

Any number of charming functions are being planned in honor of the debutantes of the season. Misses Alice and Marion Meredith will shortly be invited to a dinner to be given at the Country Club on Saturday evening, December 6. In honor of Miss Elizabeth Scott and Miss Elizabeth Palmer, both of whom are among the buds of the winter, Mr. and Mrs. Frederic William Scott will entertain at a dance to be given at their home on West Franklin Street on the evening of December 12. The debutante in honor of their daughter, Miss Elizabeth Scott, will be Miss Elizabeth Scott.

Another young girl whose name has recently been added to the list of debutantes for this season is that of Miss Elizabeth Gwathmey, the lovely young daughter of Mr. and Mrs. Richard Gwathmey, of Monument Avenue. Miss Gwathmey spent most of the past White Sulphur Springs, where she was much entertained.

The Woman's Club.—Miss Mary Williams, who holds the chair of psychology and logic at Hollins College, spoke to a capacity audience of members of the Woman's Club yesterday afternoon on the engaging subject: "The Philosophy of Feminism." She is a brilliant woman and handled her subject in a masterly manner. It is merely an old subject with a new title, she stated, and the woman's movement is either for or against the feminist movement.

Emphasizing some of the fundamental aspects of the movement, she pointed out that it was not a matter of getting the woman's vote, but of getting the woman's mind. CHARITY BAZAAR PLANNED BY ST. PATRICK'S CHURCH

Funds Will Be Raised to Liquidate Indebtedness on New Girls' School Building.

Marking the close of a series of entertainments held during the past few months under various auspices, the building committee of St. Patrick's Catholic Church and kindred organizations of that parish are completing final arrangements this week for the holding of a charity bazaar, to last for two weeks, beginning next Monday night, November 24. The bazaar will be held in the auditorium of St. Patrick's Female Academy, corner Twenty-Sixth and Grace Streets.

The purpose of this bazaar is to secure sufficient funds to liquidate outstanding obligations on the school building recently erected for girls and to provide a fund for the purchase of additional property on which to erect a school building for the boys of St. Patrick's parish.

Many attractive features are being arranged and each night there will be dancing until a late hour. Included in the list of events each evening will be either one or two numbers from a local vaudeville theater.

Booths representing the Ladies' Benevolent and Social Society, the Immaculate Conception Society, Holy Name Society, the alumnae of St. Patrick's Academy and the Mothers' Club of that parish will be present, together with a corps of women workers, and many other methods of providing an evening of amusement will be employed.

Protect Yourself Against the "Flu"

No cure has been discovered for the dreaded, insidious Spanish influenza, and many of the most prominent doctors are warning of the "Flu" during the coming fall and winter months, as bad, if not worse, than last winter.

That "Flu" is very contagious has been proved conclusively. The Kansas State Board of Health has decided to isolate all "Flu" suspects if an epidemic occurs this fall and winter; any other states are getting ready to do the same.

The "Flu" is not only dangerous to life during the illness period, but it seems to leave the entire body weak and enervated; the head swims, the nervous system is affected and frequently it affects the heart, kidneys and other organs of the body. The "after effects" are often worse than the disease itself, and hundreds of thousands of people are still feeling the weakening, enervating effects many months after they had "Flu."

There is only one way of safeguarding yourself against the danger of the "Flu" contagion and to overcome the "after effects." Influenza is a germ disease that affects the blood and poisons it, affecting every part of the body. Without oxygen you cannot live. Oxygen is the life giver, the health restorer. If there is not a sufficient supply of revitalizing germ-decaying oxygen in the blood, if the red blood cells are not rich in iron and the cell-salts that the cells of the body must have to maintain health and strength, then the blood is not able to resist disease and the body becomes sick.

Pure, healthy blood, vitalized with oxygen, rich in iron (which draws oxygen into the blood from the air in the lungs, like a magnet draws steel) and supplied with the cell-salts that nourish and rebuild the cells of the body, will resist disease, destroy disease germs, burn up the impurities and eliminate them from the system.

Reolo, the remarkable formula discovered by Dr. A. L. Reusing, increases the amount of oxygen in the blood, rapidly increases the number of red blood cells and supplies the iron and cell-salts that nature requires to maintain healthy blood and rebuild the cells that the daily work tears down.

Reolo is sold under the Positive Guarantee that if it does not help you, increase your strength, and make you feel better than you have for years, your money will be returned. Reolo is not expensive. The package of 100 tasteless tablets, sufficient for two weeks, only costs \$1.00. Reolo is sold in Richmond by Tragle Drug Co., Inc., 817-819 East 10th St., Richmond, Va. For the South, Reusing-Laboratories, Akron, Ohio.—Adv.
